E026	Legal / Regulatory Compliance

Evidence Requested	Proposed Owner
Approved ISMS scope statement	GRC / Management
Approved policy and review record	GRC / Management
Current asset inventory with owners	IT / GRC
Information classification standard and examples	GRC / IT
Approved risk methodology and criteria	GRC / Management
Approved risk register	GRC / Management
Approved risk treatment plan	GRC / Control Owners
Approved Statement of Applicability	GRC / Management
Training content and completion report	HR / GRC
Supplier due diligence questionnaire / assessment	Procurement / GRC
Security clauses in critical supplier contracts	Procurement / Legal
User access listing for critical systems	IT / Security
Quarterly access-review evidence	IT / Business Owners
Incident response plan	Security / GRC
Tabletop exercise report and action log	Security / Management
Vulnerability scan results	IT / Security
Remediation SLA and exception register	IT / Security
Logging standard / monitored event list	Security / IT
Sample alerts and monitoring review evidence	Security / IT
Secure SDLC standard	Engineering / Security
Security testing / code review evidence	Engineering / Security
Business impact analysis and recovery objectives	Operations / IT
Backup restore / recovery test report	Operations / IT
Internal audit plan and report	Internal Audit
Management review minutes and decisions	Senior Management
Irish/EU legal and regulatory obligations register, including GDPR applicability assessment where relevant	GRC / Legal

Status	Review Note
Not Received	Required to demonstrate Clause 4.3 scope definition.
Partial	Policies exist but are incomplete.
Not Received	Case explicitly states no formal asset inventory.
Not Received	Needed to support consistent handling requirements.
Not Received	Required to make assessments repeatable.
Not Received	Tracks risks, owners, treatment and status.
Not Received	Demonstrates treatment decisions and accountable owners.
Not Received	Required for formal control selection rationale.
Partial	Training occurs irregularly; recurring evidence is needed.
Partial	Checks exist but are inconsistent.
Not Received	Needed to evidence contractual security obligations.
Not Received	Needed for access review and least-privilege assessment.
Not Received	Needed to validate access-control effectiveness.
Not Received	Supports defined incident response.
Not Received	Tests readiness and tracks improvement actions.
Not Received	Supports identification of technical vulnerabilities.
Not Received	Supports timely remediation and risk acceptance.
Not Received	Defines required security-relevant logging.
Not Received	Demonstrates monitoring operates in practice.
Not Received	Defines security requirements across development lifecycle.
Not Received	Demonstrates application-security checks.
Not Received	Required for prioritized recovery planning.
Not Received	Demonstrates recovery capability.
Not Received	Required for certification-readiness check.
Not Received	Demonstrates leadership review of ISMS performance.
Not Received	Needed to demonstrate that applicable obligations have been identified and mapped to ISMS controls.
